CLASUS® INTERACTIVE WHITEBOARDS **EDUCATION**

Attractive and innovative learning tools

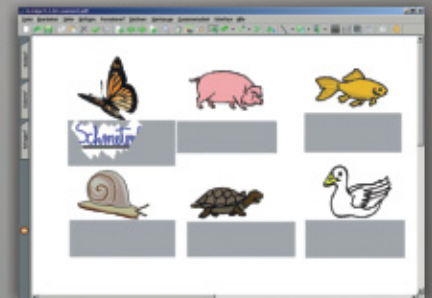

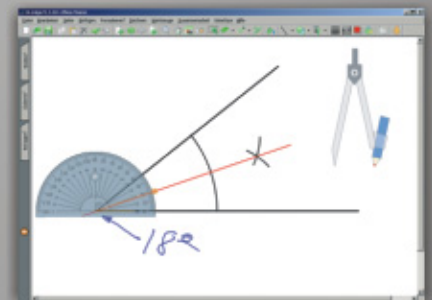

CLASUS® Interactive Whiteboard is a learning tool that not only makes classes more attractive for students but that also enables you to prepare, update and transfer information and knowledge.

Intuitive and easy to use

The CLASUS® Interactive Whiteboard is easy to assemble and to start working with. An interactive Whiteboard, a projector and a computer and you're ready to start. You can choose from wall to floor stand both easy set up solutions from CLASUS®.

A-migo Software: the best performance

Maximize the quality of your presentations with our well known A-migo software and have the maximum attention of your audience and students thanks to the power of interaction and multimedia.

A-migo Software exclusive tools to maximize your work

- ⇒ Gallery of photos, videos and other teaching contents organized by user.
- ⇒ Laptop mode (not connected to the board) allowing home work and previous class preparations.
- ⇒ Automatic recognition (geometrical shape and characters)
- ⇒ Geometrical tools (compass, ruler, protractor) with direct application on any teaching content.

DIRECT MAIL ⇒ Immediately share your class contents with all participants.

COLLABORATION ⇒ Long distance, home and multi-classroom teaching with the exclusive A-migo feature that allows a endless number of participants to share the same contents remotely.
